

**Notification of Disruption to Services w/c 22<sup>nd</sup> March 2021**

Gorton Studio

Dear subscribers

We are constantly striving to provide our customers with a smooth and user-friendly experience whilst using our website.

To achieve the highest performance standards and security levels possible we are upgrading to a new server which will improve our service. To enable this transition there will be a service interruption of about 24 - 48hrs from Monday 22<sup>nd</sup> March 2021 at 9am.

During this time access to the online course content will not be available; any automatic renewal payments will not be affected.

We have scheduled this upgrade to occur at a time that will hopefully cause the least amount of disruption to our customers. We appreciate your understanding while this essential work is done and apologise for any resulting inconvenience.

Best Wishes

Gorton Studio Team
